# Teach the way you want to teach.

InterWrite Software has been designed to provide you the flexibility to teach the way you want to teach.

- *Use InterWrite to annotate over your current application to add a level of interactivity, whether it is PowerPoint®, Excel®, Word®, Inspiration®, Geometer Sketchpad®, etc.*

- *Or build your lesson with InterWrite by using our stamps, Image Gallery, and templates for some of your content.*

- *Plus, since InterWrite is based on industry standards and is not a proprietary package, you have the flexibility to create your own stamp or Gallery Image using your favorite .JPG or other common image file*

InterWrite™ Recorder
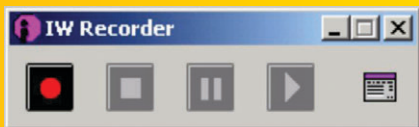

Records audio and screen changes to a .AVI file.
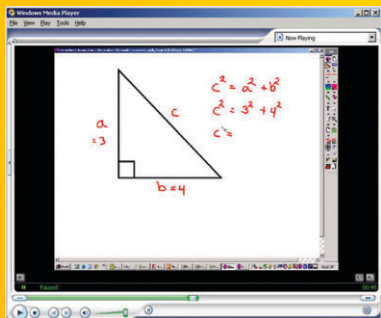

Allows users to create multimedia content quickly and easily for later playback/distribution.

Free Updates

Keeping current with the latest enhancements of InterWrite Software and our Image Galleries is as easy as using our "Check for Updates" tool in the software.

Handwriting Recognition

Enter text directly into an application or convert your handwritten notes to text using InterWrite.

Simple Navigation

Navigate easily between saved images using the Page Selector.

Office Mode Feature

You can easily save your annotations directly into Microsoft Word, PowerPoint or Excel while you are working in the Office Mode.

SOFTWARE
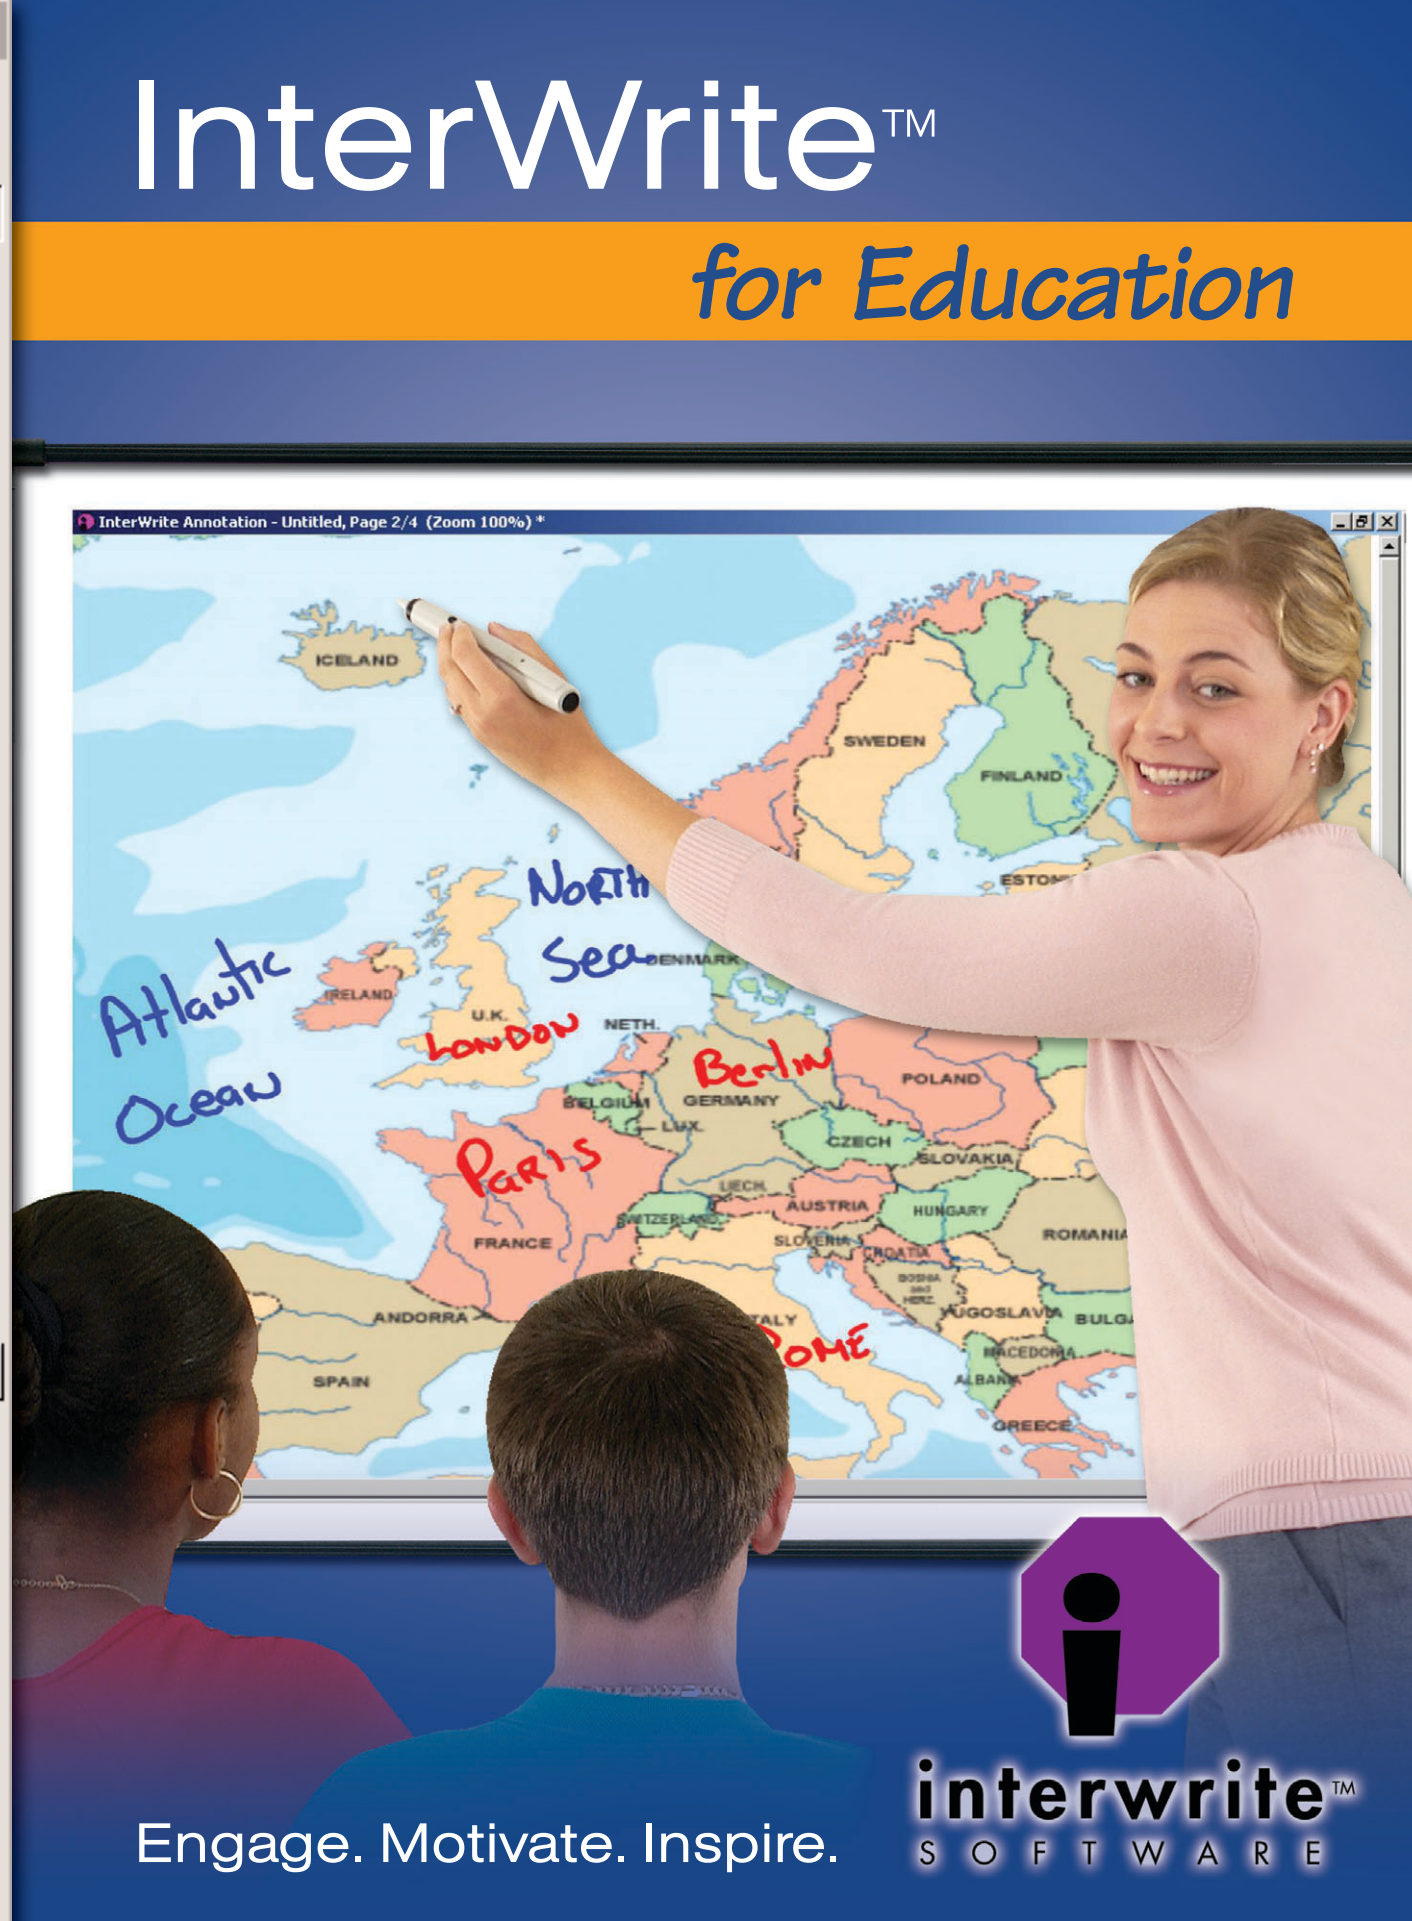

Engage. Motivate. Inspire.

# simplify *your lessons.*
advance *their learning.*

InterWrite™ Software is the most intuitive teaching aid available for engaging students in the classroom. *Using InterWrite Software with the InterWrite SchoolPad or the InterWrite SchoolBoard allows teachers to bring lessons to life by digitally making notes on the screen, highlighting important information and interacting with lesson materials. The lesson can then be saved and printed, or emailed to absent students.*

Image Gallery

"With all the maps included in InterWrite, teaching geography is a breeze!"

Adding content to your lesson is as simple as dragging and dropping any image from the Image Gallery into the software.

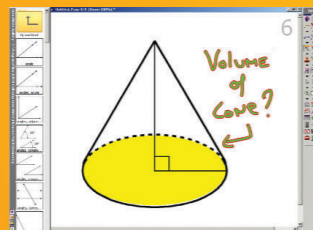

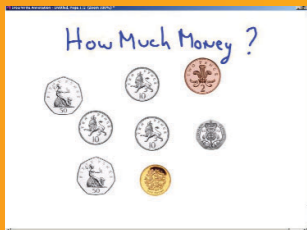

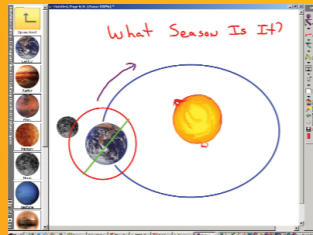

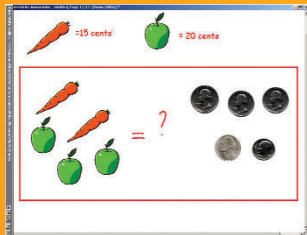

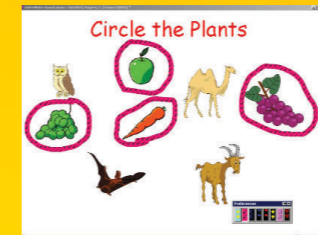

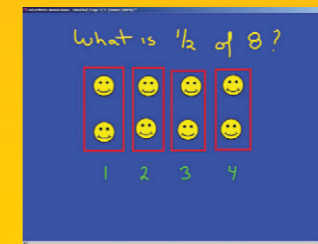

Large image gallery provides content
for many subject areas: math objects, currency, planets and space, maps, and much more! Plus, you can easily add your own!

Annotation Tools
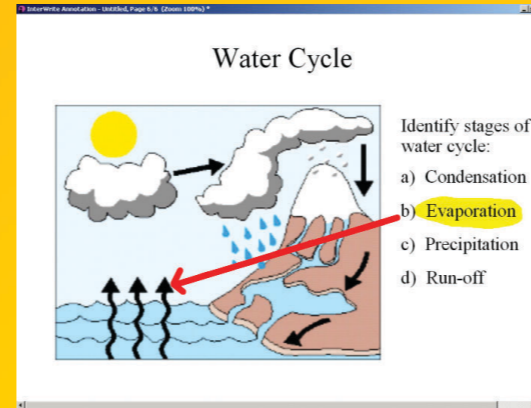

Easy-to-use pen and highlighter tools allow you to annotate on top of PowerPoint®, a website or your favorite application.

Background Templates

"InterWrite empowers the students like never before to interact with the materials that I use."

Use one of the many background templates to quickly access commonly used images.

Focus Tools

"This software is so easy to use! It allows me to add life to every lesson."
